

LEGAL CASE MANAGEMENT APP

Delivering – Success Through Partnership

CLIENT

- A Global Technology company headquartered in the United States, providing wide range of IT products & services.

BENEFIT

- Subscription based On-Cloud solution offering.
- Reduced price offering for the solution.
- Reduced tech dependency for solution deployment.
- Enhanced UI & User experience.
- Ease of solution upgrades & code push.

REQUIREMENT

- Align business strategy to the market trend & need.
- To re-develop an existing .Net based product on a cloud platform.
- Reduce cost of ownership and deployment cycle to the Customer.

SOLUTION

- Re-development of an existing .Net based “Legal Case Management” system on Force.com platform, primarily used by District Attorney office(s).
- Simplified the existing Case Management processes.
- Product enhanced to include ‘Wizard’ assisted ‘Case Creation’ process.
- Product feature also covered document generation, merging & external storage (on Amazon S3).
- Custom report to analyze the Case & its history.
